

Your RSVP is Requested

FREE SunSystems Analytics Workshop exploring
Critical Business Performance Management (BPM) Strategies.

Friday, April 23rd
New York • Toronto • Houston

With John Van Decker, Vice President,
Enterprise Applications Strategies, META GROUP

As a valued customer, we've designed this exclusive event, and partnered with META Group Inc., to provide you with expert insight into some of the most critical BPM and best practices questions facing CFOs and financial executives today. If you are developing a BPM strategy for your organization, we strongly encourage you to attend this workshop.

Who should attend:

- CFOs
- CIOs
- Financial executives and controllers
- IT professionals with compliance responsibilities

Why attend:

- 100% education focused event
- Presentation from industry's leading analytics and BI analyst
- Gain better understanding of the BPM paradigm shift
- Find out what your peers are doing with BPM
- Find out where the industry is headed in the next 18 months

Key issues for discussion:

- BI vs. BPM: impact on business decisions
- Implementing an enterprise BPM model
- Understanding the global compliance landscape
- Technology scenario: evaluating management reporting through spreadsheets vs. web-based solutions

Keynote Speaker

JOHN VAN DECKER, VP, ENTERPRISE
APPLICATIONS STRATEGIES, META GROUP

Mr. Van Decker is a leading authority on financial management business applications, including enterprise resource planning packages and business performance management. He has more than 19 years of experience as an industry analyst, IT director, and CFO manager/end user.
